RE: Housing Program Update

The poster that was mailed to you has changed. Please replace this poster with the new one and posted in your building for residents in your area to read. The home improvement program has limited funding available for low and very low-income residents in your area for home improvements. Also available are loans for low to moderate income residents including landlords for improvements on rental units. The interest rate is from 4-8% interest with a 20-year repayment. If you know anyone you think that may be eligible or needs assistance please call this office for information or have him or her call for an application. Thank you.

This institution is an equal opportunity provider
